INSTRUCTIONS:

This is the decision in your case. All documents have been returned to the office which originally decided your case. Any further inquiry must be made to that office.

If you believe the law was inappropriately applied or the analysis used in reaching the decision was inconsistent with the information provided or with precedent decisions, you may file a motion to reconsider. Such a motion must state the reasons for reconsideration and be supported by any pertinent precedent decisions. Any motion to reconsider must be filed within 30 days of the decision that the motion seeks to reconsider, as required under 8 C.F.R. 103.5(a)(1)(i).

If you have new or additional information which you wish to have considered, you may file a motion to reopen. Such a motion must state the new facts to be proved at the reopened proceeding and be supported by affidavits or other documentary evidence. Any motion to reopen must be filed within 30 days of the decision that the motion seeks to reopen, except that failure to file before this period expires may be excused in the discretion of the Service where it is demonstrated that the delay was reasonable and beyond the control of the applicant or petitioner. Id.

Any motion must be filed with the office which originally decided your case along with a fee of \$110 as required under 8 C.F.R. 103.7.

FOR THE ASSOCIATE COMMISSIONER,
EXAMINATIONS

Mary C. Mulrean, Acting Director
Administrative Appeals Office

DISCUSSION: The nonimmigrant visa petition was denied by the director and is now before the Associate Commissioner, Examinations, on appeal. The appeal will be dismissed.

The petitioner is engaged in the import and export of textiles and garments. It seeks to employ the beneficiary as a merchandise manager for three years. The director determined the petitioner had not established that the offered position is a specialty occupation.

On appeal, counsel states that the employer has established that the position offered qualifies as a specialty occupation and that the position itself requires the services of a person holding a bachelor's degree. Counsel argues that the petition should be adjudicated based on consideration of the particular needs of the company and the demands of the offered position. Counsel further argues that the petitioner has demonstrated that a bachelor's degree in fashion merchandising is generally a requirement for entry into the field and that the proposed job duties are so specialized and complex that knowledge required to perform them is usually associated with the attainment of a bachelor's degree or higher.

Section 101(a)(15)(H)(i)(b) of the Immigration and Nationality Act (the Act), 8 U.S.C. 1101(a)(15)(H)(i)(b), provides in part for nonimmigrant classification to qualified aliens who are coming temporarily to the United States to perform services in a specialty occupation. Section 214(i)(1) of the Act, 8 U.S.C. 1184(i)(1), defines a "specialty occupation" as an occupation that requires theoretical and practical application of a body of highly specialized knowledge, and attainment of a bachelor's or higher degree in the specific specialty (or its equivalent) as a minimum for entry into the occupation in the United States.

Pursuant to section 214(i)(2) of the Act, 8 U.S.C. 1184(i)(2), to qualify as an alien coming to perform services in a specialty occupation the beneficiary must hold full state licensure to practice in the occupation, if such licensure is required to practice in the occupation. In addition, the beneficiary must have completed the degree required for the occupation, or have experience in the specialty equivalent to the completion of such degree and recognition of expertise in the specialty through progressively responsible positions relating to the specialty.

Pursuant to 8 C.F.R. 214.2(h)(4)(iii)(B), the petitioner shall submit the following with an H-1B petition involving a specialty occupation:

1. A certification from the Secretary of Labor that the petitioner has filed a labor condition application with the Secretary,

2. A statement that it will comply with the terms of the labor condition application for the duration of the alien's authorized period of stay, and

3. Evidence that the alien qualifies to perform services in the specialty occupation.

The petitioner has provided a certified labor condition application and a statement that it will comply with the terms of the labor condition application.

Pursuant to 8 C.F.R. 214.2(h)(4)(iii)(C), to qualify to perform services in a specialty occupation, the alien must meet one of the following criteria:

1. Hold a United States baccalaureate or higher degree required by the specialty occupation from an accredited college or university;

2. Hold a foreign degree determined to be equivalent to a United States baccalaureate or higher degree required by the specialty occupation from an accredited college or university;

3. Hold an unrestricted State license, registration, or certification which authorizes him or her to fully practice the specialty occupation and be immediately engaged in that specialty in the state of intended employment; or

4. Have education, specialized training, and/or progressively responsible experience that is equivalent to completion of a United States baccalaureate or higher degree in the specialty occupation and have recognition of expertise in the specialty through progressively responsible positions directly related to the specialty.

The beneficiary's foreign education has been found by a credentials evaluation service to be equivalent to a bachelor of engineering and one year of post-secondary education in the United States. Accordingly, it is concluded that the petitioner has shown that the beneficiary qualifies to perform the duties of the offered position.

The term "specialty occupation" is defined at 8 C.F.R. 214.2(h)(4)(ii) as:

an occupation which requires theoretical and practical application of a body of highly specialized knowledge to fully perform the occupation in such fields of human endeavor, including, but not limited to, architecture,

engineering, mathematics, physical sciences, social sciences, medicine and health, education, business specialties, accounting, law, theology, and the arts, and which requires the attainment of a bachelor's degree or higher in a specific specialty, or its equivalent, as a minimum for entry into the occupation in the United States.

Pursuant to 8 C.F.R. 214.2(h)(4)(iii)(A), to qualify as a specialty occupation, the position must meet one of the following criteria:

1. A baccalaureate or higher degree or its equivalent is normally the minimum requirement for entry into the particular position;
2. The degree requirement is common to the industry in parallel positions among similar organizations or, in the alternative, an employer may show that its particular position is so complex or unique that it can be performed only by an individual with a degree;
3. The employer normally requires a degree or its equivalent for the position; or
4. The nature of the specific duties is so specialized and complex that knowledge required to perform the duties is usually associated with the attainment of a baccalaureate or higher degree.

The duties of the offered position are described as follows:

Manage importing and shipping of completed garments manufactured in foreign factory site of Guatemala. Upon order of current customers or buyers (US garment manufacturer of brand name holders). Prepare shipment of cut-works and trims needed for manufacturing garments in Guatemala factories. Merchandise manager also decides shipping methods from foreign site to United States and other countries including container type and freight type.

Manage purchasing activity of piece goods and trims required for manufacturing garments. In case of full-package, Merchandise manager purchases fabrics, linings, and all kinds of trims required for manufacturing garments. Review and screen sources of fabrics and trims to purchase at low cost as possible. Fabrics are imported from many different countries like Italy, Korea, China, and Taiwan. Lining and trims are usually purchased in domestic market and imported from Korea.

Coordinate production activity of garments in Guatemala factory to meet quality standard and delivery timing including reviewing sample and ordering necessary and desired production works to foreign factory.

The petitioner has failed to establish that any of the four factors enumerated above are present in this proceeding. The petitioner has not shown that it has, in the past, required the services of individuals with baccalaureate or higher degrees in a specialized area for the offered position.

In these proceedings, the duties of the position are dispositive and not the job title. The offered position appears to combine the duties of a general manager or executive with those of a purchaser or buyer. The Department of Labor's Occupational Outlook Handbook (Handbook), 2000-2001 edition, at pages 50-51 finds no requirement of a baccalaureate or higher degree in a specialized area for employment as a general manager or executive. Degrees in business and in liberal arts fields appear equally welcome. In addition, certain personal qualities and participation in training programs are often considered as important as a specific formal academic background.

The Handbook at page 75 also finds no requirement of a baccalaureate degree in a specialized area for employment as a buyer or purchaser. Educational requirements vary. Some employers prefer degrees in business while others prefer technical training such as engineering or one of the applied sciences. Other buyers and purchasers are promoted from the ranks of assistant buyers or purchasing clerks. In view of the foregoing, it is concluded that the petitioner has not demonstrated that the offered position is a specialty occupation within the meaning of regulations.

The burden of proof in these proceedings rests solely with the petitioner. Section 291 of the Act. 8 U.S.C. 1361. The petitioner has not sustained that burden.

ORDER: The appeal is dismissed.
